Here's what other students have said about completing their Diploma of Project Management...

"Completing this qualification has really helped me to install practical goal setting skills. As well as this, the work skills I learned were really helpful, especially in the areas of planning and the benefits of systematic approach. I enjoyed the challenge and will definitely recommend the program for up skilling. The support processes at Global Training Institute were excellent and encouraging. This is just the beginning!"
Glen Raine, Vice-president QLD Master Builders.

"All aspects of this course were beneficial to me, especially the units focused on Managing Risk, Project Cost and Time and Human Resources. The support systems at GTI were very helpful and all aspects of course delivery were done well. I would recommend this course to others." Mitchell McIlwain

"I found the Assessment process really practical and useful. The fact I could use my own experience was really useful. It was by doing this that I realised I knew more than I thought! Also, the support was great. Every time I had a doubt, and needed to call, there was always someone at the other end willing to help. Manage Project Risk was one aspect of the course that was significant to my development. I have hardly any experience in this field and it made me gain a better understanding of what risk management involves. I found the tutorials on the phone really useful and would recommend this course to other project managers and commercial managers." Jose Revilla

"The course was helpful in reinforcing what I was doing in my current role, as well as extending my Project Management knowledge. I support was good with regular communication to check progress and provide updates. The trainer's support was done really well with regular phone meetings and face to face meeting opportunities. I would recommend this training to anyone seeking to improve their Project Management skills."
Peter Tunney
